Jonathon –

Thanks for your quick response (you're working late!).

So 'Option 1' in the new, to-come proposal for the CTG will be full withdrawal. And EPA will seek comment on an 'Option 2' to extend SIP due date with CTGs revised to reflect OOOOa revisions ... right?

Merci,

Cindy Beeler

Hi all,

In addition to doing a supplemental proposal laying out our new rationale for the withdrawal, we will also be soliciting comment on extending the SIP revision due date to August 3, 2020 (to align with the SIP revision due date for the new ozone NA designations) and modifying the CTG to align with changes made to NSPS OOOOa. This is in case we receive significant adverse legal comments on our new rationale for withdrawal.

Hope that helps. Let me know if you have further questions.

Thanks,
Jonathan

Jon –

Abby Fulton is our R8 CO Ozone SIP lead. She was on the national Ozone Implementation Workgroup call today and Butch Stackhouse reported that OAQPS is considering

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Abby – If I’m characterizing this sloppily, please jump in.

I just want to make sure we’re providing a consistent message on the oil & gas CTGs.

Thanks,

Cindy Beeler

Jon & Matt –

Sorry, I've forgotten who is the lead on the oil & gas CTGs. Colorado, as you know, is in the midst of SIP work for their ozone nonattainment status and are asking about the status of the oil & gas CTGs. Now that OOOOa revisions have been published:

- Are the plans to make the same revisions to the CTGs?
- What is the timing for CTGs?

Appreciate any insight I could provide to CO.

Thanks,

Cindy Beeler
